About 2012 Technology Convergence Conference

The TCC is a one-day educational conference where IT, Facilities, and Data Center professionals and executives come together to learn from each other in a unique collaborative setting. The TCC is held in the Santa Clara Convention Center Mission City Ballroom in Santa Clara, CA every February. The event is being hosted by TELADATA. TELADATA is a multi-discipline design, consulting and project management organization providing services to support IT physical infrastructure, data center, audiovisual, telecommunications, and monitoring projects.

For more information about the TCC, please visit is www.teladatatcc.com.

Celebrating 20 Years of Environmental Service

"We are committed to a green world by helping clients in proper end-of-life management of assets containing sensitive data and components hazardous to our environment."

About AERC Recycling Solutions

AERC Recycling Solutions is committed to a green world by helping clients in proper end-of-life management of assets, including those containing sensitive data and components hazardous to our environment. AERC has become an industry leader through its partnerships with clients by providing unmatched convenience, regulatory compliance and expert consulting to handle Electronic and Universal Waste issues. AERC develops comprehensive programs for its clients around the nation in providing full service solutions for handling End-of-Life Electronics, Secure Data Destruction, Asset Management, Electronic and Universal Waste needs. Acceptable Universal Waste materials include fluorescent lamps, batteries, ballasts and mercury containing devices.

AERC owns and operates five wholly owned Electronics Processing Com-Cycle facilities in five separate geographic locations. Each of these facilities has the industry designation of being an R2 / RIOS™ Certified Electronics Recycler® facility and has been independently certified to these industry designations. These Certified Electronics Recycler® facilities are in Allentown, PA, Ashland, VA, West Melbourne, FL, Houston, TX, and Hayward, CA. AERC maintains a Zero-Waste-to-Landfill Policy for all of its hazardous electronics / electrical recycling services. All electronics are dismantled domestically by AERC's highly trained staff. Any information on data storage devices is either wiped to the standards set by the Department of Defense or physically destroyed. AERC offers its clients compliance with Federal, State, and Local regulations.
