

FOR IMMEDIATE RELEASE

AERC.com, Inc. Electronics Processing and Data Destruction Com-Cycle Facility Obtains NAID Certification

Flanders, NJ – October 1, 2008 – AERC Recycling Solutions, one of the leading full-service recycling companies in the nation, announces that its electronics processing Com-Cycle facility acquired National Association for Information Destruction (NAID) Certification for its plant based operations endorsed for computer hard drive destruction. Com-Cycle Allentown, located at 1801 Union Boulevard in Allentown, Pennsylvania, is devoted solely to processing electronics offering services which include secure data management, complete end-of-life management services, complete disassembly and dismantling and computer hard drive destruction. AERC Recycling Solutions has five other electronics processing Com-Cycle facilities throughout the United States operating to the same high standards.

“As a NAID Certificate holder, Com-Cycle Allentown demonstrates that the Company’s operations are upheld to the highest standards in the industry. The Company has very stringent standard operational procedures and constant checks in place to ensure responsible and compliant processing of incoming materials in a manner that is safe for the environment, our clients and our employees,” says Robert Landmesser, Founder and Chairman of AERC Recycling Solutions.

NAID Certification regulates and controls each part of the computer hard drive destruction process, which encompass insurance coverage, chain of custody, tracking of assets, secure transport of assets, employee qualifications and screening, operational security, the physical destruction process and final disposition of assets. Com-Cycle Allentown adheres to all such requirements established and enforced by NAID by undergoing a number of ongoing scheduled and unscheduled audits. AERC Recycling Solutions and its wholly owned subsidiary, Com-Cycle have membership status with NAID, International Association of Electronics Recyclers (IAER), Solid Waste Association of North America (SWANA), CHWMEG and other relevant national and local organizations.

About NAID

The National Association for Information Destruction is an international trade association for companies providing destruction services. With a mission to promote this industry, NAID works to set standards and ethics for its member companies. For more information, visit the NAID website at www.naidonline.org.

About AERC Recycling Solutions

AERC Recycling Solutions is committed to a green world by helping clients in proper end-of-life management of assets containing sensitive data and components hazardous to our environment. AERC has become an industry leader through its partnerships with clients by providing unmatched convenience, regulatory compliance and expert consulting to handle Universal Waste issues. In 2004, AERC began servicing customers with electronics recycling needs. AERC offers complete computer and electronics recycling services with a Zero-Waste-to-Landfill Policy.

AERC offers compliance with Federal, State, and Local regulations as well as Secure Data Destruction for its clients’ electronic data drives. The Company provides an array of services which include Secure Data Destruction and Management, Total Asset Management, and End-of-Life Electronics Management. With its own fleet of GPS tracked trucks the Company provides delivery confirmations and in-house management of logistics for clients and can provide an audit trail for compliance with data security and environmental laws. The Company provides “chain of custody” of assets for clients with coverage throughout all major markets in the United States, with continued plans for expansion across the United States.
